Subject: Cost Notification

Gentlemen:

In accordance with contractual procedures please be advised that as of July 1, 1958, expended costs have reached a level of 85% expended. These costs include some interim work accomplished during the test period.

We have been keeping closely advised on progress of tests and among other things it appears that some engineering changes and quantity changes may be in order. Further, your representatives have indicated a possibility of adding spare parts compatible with field support of this equipment.

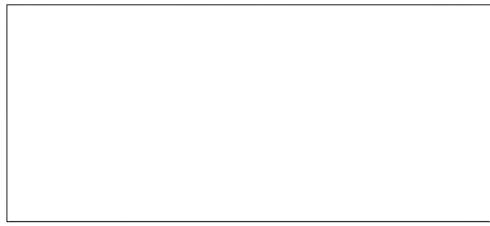

In view of the fact that no work is now in process, we respectfully suggest that further cost requirement be held in abeyance until such time as all aspects are fully known and tests completed. Subsequent to that time a full and detailed cost breakdown will be provided.

We sincerely trust that you will find this suggestion satisfactory.
